Ryuk,

Attached is an updated print request form. It lists all of the same prints. It just adds the date on which the each print was requested. Our reviewer just clarified to me that he has been making print requests to Kasper each day, and each time Kasper has assured him that the print requests will be processed "automatically." Instead, Micron has been ignoring them. Since August 25. Add this to the (long) list of reasons why sanctions are warranted, and why this is an exceptional case.

Very truly yours,

**Subject:** Netlist v. Micron, No. 22-cv-203 (E.D. Tex.) - Netlist's Sept. 13 Inspection Print Requests

Mike,

Following up on our reviewer Aashik's request to Micron's representative Kasper earlier today, the attached lists the files that Netlist has requested be printed pursuant to the Protective Order, Dkt. 46, ¶ 10(c)xiii.

We ask that Micron expedite its consideration of these requests, and, by tomorrow, either state any objection or prepare the printouts for production for arrival at Irell by Friday, Sept. 15, 2023.

Please also return at that time the attached file with the corresponding Bates number of each print filled in.
